ABOUT THE INSTITUTE

Shri Shankaracharya Institute of Professional Management and Technology (SSIPMT) Raipur is an insignia of quality technical and management education in Central India. The institute, established on 8th August 2008, is approved by All India Council of Technical Education, New Delhi and is a self-financed institute affiliated to the State Technical University – Chhattisgarh Swami Vivekananda Technical University (CSVTU), Bhilai. SSIPMT runs under the aegis of Shri Gangajali Education Society, Bhilai (Registration No: 2005, Dated 18.05.1994) constituted under the provision of Statute 28, framed under M.P. Vishwavidhyalaya Adhinium 1973 and the AICTE Act.

SSIPMT maintains high academic quality standards; the certification by the NAAC, NBA and IIC Ranking is testimony of the same. The institute has been ranked as "Best Technical Campus in Chhattisgarh" at the 'Think India Education Summit 2015 Chhattisgarh.' Our quality is also endorsed by the prestigious 5S Certification by JUSE, Japan and ISO certification. The institute stands out with distinctions for inaugurating India's First AICTE-IDEA Lab among the only 49 institutes selected across the country by AICTE and Ministry of Education. Owing to the successful multi-disciplinary innovation ecosystem fostering the culture of innovation among students in institute, we have been awarded 4 Star (out of 5) rating in Institution Innovation Council (IIC) set up under Ministry of Education (MoE), Govt. of India consecutively for two years. The institute is spread over lush green and pollution-free environs of the capital city and offers a unique atmosphere for educational excellence. Amidst beautiful landscape, aesthetic architecture and avant-garde infrastructure, the institute epitomizes an exemplary setting for higher learning. To sum up, SSIPMT has left no stone unturned to reach the pinnacle of merit in engineering education.

VISION

"To be a premier technical institute in the country that imparts innovation-driven education to nurture value-based competent future professionals"

SSIPMT Raipur has made optimum endeavors to take engineering education to greater heights as one of the pioneering institutes in the country and it will continue to make efforts towards achieving its vision.

In its journey towards excellence, SSIPMT has continued to grow multi-dimensionally. It has made many meaningful innovations in academics, and operations within a short span of time. In academics, a paradigm shift from 'paathshaala to prayogshaala' has become the hallmark of the institute. Together with academic excellence, SSIPMT has actively collaborated with the industry to ensure alignment. The institute has established Centers of Excellence (CoE) in association with industry and trade bodies to enable innovation at the institute. Additionally, to enable value based leadership at SSIPMT, it has created an ecosystem that connects students and faculty with the society so as to give back to the society at large.

Internships, placements, industrial visits, lectures, workshops, FDPs, and hackathons are a regular feature of the institute. They enable the vision into reality.

MISSION

Apropos of the vision of the institute, the mission statements have been articulated as

"The institute will focus on producing competent future professionals by:

1. Partnering and collaborating with industry and government in producing new knowledge and addressing socially relevant problems.

2. Creating infrastructure and good practices that foster innovation-based education.

3. Providing experiences that lead students becoming good engineers."

The mission statement serves as the light house for all the stakeholders and presents a roadmap of specific actions. Deriving from the mission statement 1, SSIPMT has been able to sign up MoUs with industry and has actively collaborated with the industry to align with their requirements and thereby making students industry ready. It has adopted a systematic approach to encourage its students to take up socially relevant problems and find solutions by applying engineering skills.

Working on the mission statement 2, the institute has created a conducive environment that presents the students with a right balance of theory and practice, and has thus instilled a multi-disciplinary, competitive and exploratory mindset in them.

The mission statement 3 contributes by directing the institute to offer its students pathways for 360-degree development by integrating technical /and life skills, offer internship opportunities in companies, and thus equip them to become potential engineers, eventually culminating in placements in leading MNCs to pursue a successful career as successful engineers.

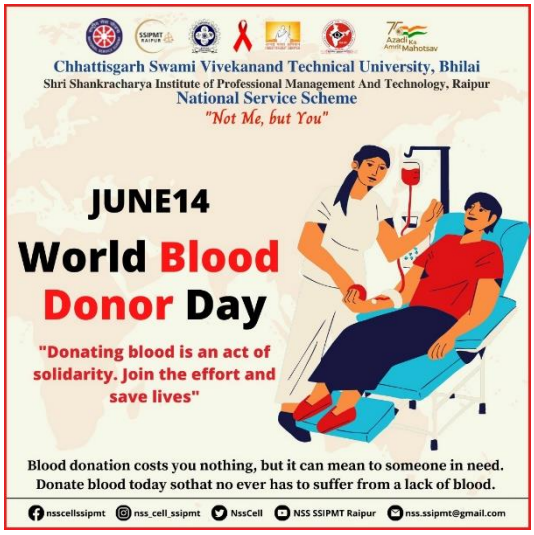
WORLD BLOOD DONOR DAY

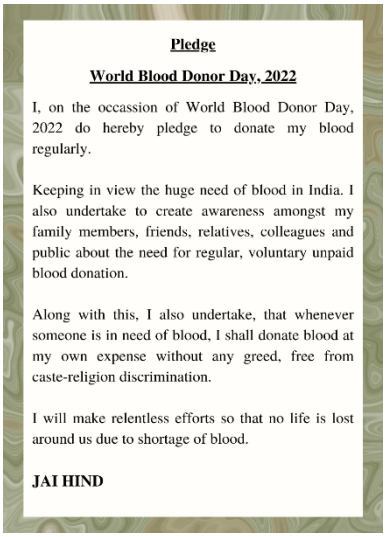
1

11th June, 2022

Every year countries around the world celebrate World Blood Donor Day (WBDD). The event serves to raise awareness of the need for safe blood and blood products and to thank voluntary, unpaid blood donors for their life-saving gifts of blood.



POSTER FOR THE DAY



Pledge

World Blood Donor Day, 2022

I, on the occassion of World Blood Donor Day, 2022 do hereby pledge to donate my blood regularly.

Keeping in view the huge need of blood in India. I also undertake to create awareness amongst my family members, friends, relatives, colleagues and public about the need for regular, voluntary unpaid blood donation.

Along with this, I also undertake, that whenever someone is in need of blood, I shall donate blood at my own expense without any greed, free from caste-religion discrimination.

I will make relentless efforts so that no life is lost around us due to shortage of blood.

HARELI UTSAV

5

28st July 2022

Hareli is an agricultural festival celebrated on the Sravana Amavasya, the new moon at the start of the month of Shravan, a holy month for Hindus.The name of this popular and famous festival comes from the Hindi word "Haryali" which means greenery, which abounds at this time of year as the annual monsoon season is in full swing. Fittingly it is Kutki Dai, the goddess of crops who is the focus of worship during the festival as the farmers seek her help in ensuring they will have plentiful crops.

POSTER FOR THE DAY

POSTER OF THE EVENT

On the occasion of Hareli Tihar, National Service Scheme S.S.I.P.M.T Raipur has organised a Hareli celebration in the institute on 28th July, Thursday.

Hareli is celebrated to honor and show reverence for farming tools. The farmers of Chhattisgarh worship their equipment. They pray for a good harvest and the basic theme of this festival is nature-centric. The rituals are simple, though the importance of a good crop ensure the prayers are ardent. During the Hareli festival, people place branches of the Bhelwa tree in their respective fields. They also hanged branches of Neem tree on the entrance of their houses. Neem has medicinal properties that prevents diseases as well as insects. The Hareli festival of Chhattisgarh is also marked by playing 'Gedi', a game where small children use bamboo sticks as stilts and walk around the fields.

The event begun with cleaning the faming tools and then they were placed where volunteers have made patterns with rice flour (**Chowk Poorana**). Then along with Mr. Mahendra Kumar Sahu (Asst. Prof. Dept. of IT) volunteers worship equipment's.

CLEANING OF TOOLS

POOJA

After pooja, volunteers offered traditional food like **Chilla, Bara, Puri And Mal Puwa.**

Mr. Mahendra Kumar Sahu (Asst. Prof. Dept. of IT) explained why Hareli is being celebrated and shared his thoughts on importance of neem leaves which is also helpful for

Skilling Programs
by IDEA Lab

The Skilling Program, organized by The IDEA Lab at SSIPMT is an endeavor to equip the students with the knowledge of latest technologies. IDEA Lab would serve as an infrastructure for students to take up and promote multidisciplinary education and research.

PCB Designing

The objective of the workshop is to familiarize the students with the concept of Electronic Components and PCB Designing with more focus on Practice session on Eagle Software and Designing of PCB.

App Development using React Native

In this React Native training class, attendees learn how to use React Native to create cross-platform native apps quickly and easily. Students start from scratch and build up to a comprehensive app that uses modern techniques. In addition, participants learn best practices to consume RESTful data from a NodeJS/Express server and present it to the user in a multi-screen, interactive app.

Great ideas need landing gears as well as wings...

3D Printing

The objective of the Skilling Program is to familiarize the students with the concept of 3D Printing and Design with more focus on Practice session on CAD Software and Assembly of 3D printer, Troubleshooting of 3D Printers.

Raspberry Pi Programming

The objective of the Skilling Program is to familiarize the faculties/students with basic Python Programming Language and the concept related to Internet of Things. Faculties/Students will get hands-on experience in working with Raspberry Pi and exploring IoT.

C and Basic Electronics

The major objective is to provide students with understanding of code organization and functional hierarchical decomposition with using complex data types. This course provides the student with the fundamental skills to understand the basic of semiconductor and components like diode, transistors and various types of sensors.

Arduino

The objective of this skilling program is to familiarize students with Arduino as IDE, programming language & platform and to provide knowledge of Arduino boards and basic components and sensors.

IC Design Front End Approach

The objective of this skilling program is to make students understand the basics of IC design using HDL and also Simulation of circuits using Xilinx.

IoT (Internet of Things)

The objective of the Training Program is to familiarize the students with the concept of Internet of Things and Application Development with more focus on Practice sessions on ARDUINO IDE and ANDROID STUDIO.

IDEA Lab's Professional Skilling Programs

Professional Skilling Program on various Mechanical and Electronic tools

The objective of this hands-on skilling program is to provide the participants with the necessary knowledge of various electronics and mechanical tools. The participants will be able to understand the working of various Power and hand tools, understand the function of electronic equipment and tools, familiarize with the concept of 3D Printing and Design with more focus on Practice sessions on CAD tools and Assembly of 3D printer and understand the types of welding.

Students of Govt ITI, Saddu, Raipur and Govt ITI Mana, Raipur in 3 batches participated in this 12 days Bootcamp

Faculty Development Program
at IDEA Lab

Faculties needs to be trained on equipment, to be able to guide students and conduct events- including those from other institutions.

Faculty Development Program on Pathshaala to Prayogshaala

The main objective of this FDP is to put "Theory into Practice" with the intent to impart practical knowledge to help young learners develop something new of their one with the help of their teachers. This will enhance the spirit of Ideation and innovation in the students.

This program was conducted for School teachers. 31 Schools Teachers from various schools participated in this program. They all were trained on the Science experimental kits developed by the **SSIPMT IDEA Lab.**

Objectives:- The main object of patent and design to encourage scientific research, new technology and industrial progress. Patent law grants a monopoly to the inventor to use their patented product and allow the use of the same to someone with prior permission against certain consideration.

Benefits:- A patent gives you the right to stop others from copying, manufacturing, selling or importing your invention without your permission. The owner owns full freedom to utilize, sell, or even modify the original invention and to prevent others from making profits from the same ideas without his consent.
