Any other Remarks/Suggestion

The institute has been doing tremendous for the longest time and yet doing better with each day passing by. Though i graduated in the previous year and i am satisfied with everything that the institute offered. Our department, Department of Information Technology always has been supportive and cooperative, which helped each one of us. Quality of teaching is great to an extent and the values we recieved outside of engineering too has remain helpful. Lately, the department and the institute are trying to bring more opportunities to students which could be seen as high paying employment offers, tech enabled teaching for better demonstration and the incubator that certainly helps students to innovate and turn their ideas to something practical. Institute must keep doing great, as they have been doing ever since.
